EducationInterface

ORGANIZE EDUCATE INNOVATE

It's More Than Inservice Training!

Education Interface specializes in providing web-enabled learning to the healthcare industry.
We provide solutions that include training, a learning management system, and customized content creation.

ORGANIZE

Our System

This "Turn Key Solution" provides a variety of integration and support services to ensure your training headaches are gone for good.

Customized reporting features allow management to:

- Track individual student's progress
- Serve as an adjunct tool to your annual mandatory in-service training
- Quickly train and orient new hires
- Generate current and past reports of employee training
- Reduce costs associated with scheduling training sessions to accommodate all shifts

Support

It is the goal of all at Education Interface to support you, your staff and your facility. We are committed to providing state of the art customer service, training and ongoing support. It is our hope each and every one of our customers takes pride in helping us build a training platform that embodies the needs of the people using it.

INNOVATE

Our Technology

The Education Interface Learning Platform is a web enabled learning system which allows students to access their coursework via the internet. In an effort to create a multi-sensory, secure learning environment we have incorporated the following features into our learning modules:

- Password Protection
- Customized Student Home Pages
- Self Paced Learning
- Interactive Excercises
- Audio & Video Animation
- Closed Caption
- Multiple Languages
- Departmental & Administrative Messaging
- Web Conference Testing & Scoring
- Tracking and Reporting of Coursework, Test Scores, and Student Activity

"If I knew then what I know now, I would have chosen Education Interface even sooner!"
